Contact Name\*:

**\*Required Fields**

Company Name\*:

Contact Location\*:

Telephone Number\*:

Fax Number:

E-mail Address\*:

Required Proposal Date\*:

Engine Make\*:

Engine Model\*:

RPM\*:

Fuel type\*:

(natural gas, diesel, biogas, etc.)

Max Allowable Back Pressure\*:

Number of Engines:

Engine Exhaust Noise (dBA):

Rated Power\*:

Exhaust Flow Rate (Wet)\*:

Exhaust Temperature\*:

Engine type\*:

(Rich burn, lean burn, dual fuel)

Unit Orientation\*

Vertical

Horizontal

Max Exh pressure drop for WHRS\*:

(if unknown use 6 inches wc)

Water flow\*:

Water inlet temperature to WHRS\*:

Maximum water side pressure drop\*:

(if unknown use 3 psig)

Percent glycol (if any)\*:

Attach all specifications pertaining to the exhaust waste heat recovery silencer including specification on insulation, drawings showing installations of exhaust waste heat recovery silencer.

Additional Specifications or Requirements:

**\* Please Include Units**
